

## Was your Bosch Vertical Bagger purchased prior to 2013?

Here at Bosch, we are committed to providing our customers with the most up-to-date information relating to their specific machines. We also strive to partner with our customers to plan for the necessary changes that may need to take place to ensure that their production is not adversely affected.

We have been informed by our third-party supplier, Festo, that as of December 2016, the following parts will become obsolete.

Festo Supplied Assemblies to become obsolete:

8-110-128-826 valve bank (used on SVE3800's)

8-110-128-825 valve bank (used on SVE2510's)

Including these valve bank components

8-110-127-487 valve solenoid

8-110-127-489 bridge current

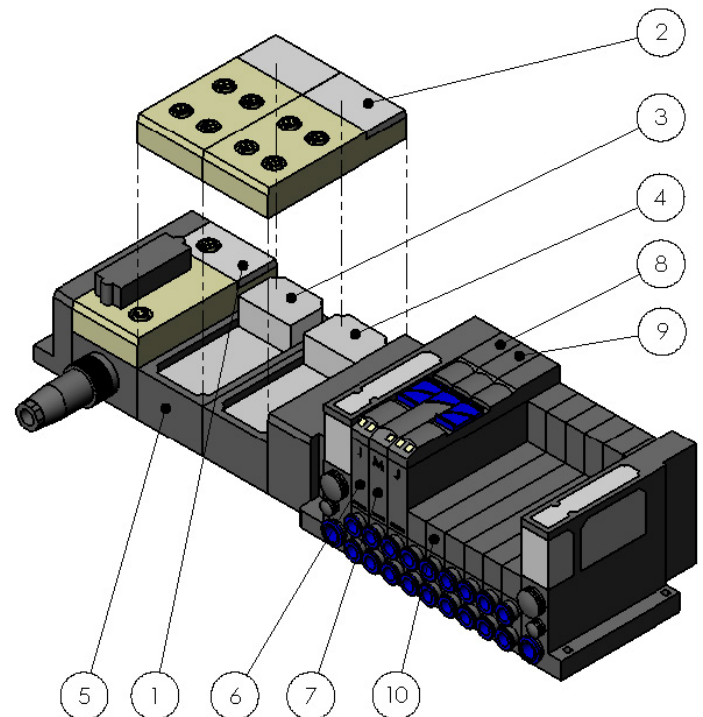

8-110-127-488 valve solenoid

8-110-127-490 bridge solenoid

### Options

- ▶ Incorporate these parts into your components planning strategy before they become obsolete
- ▶ Consider an upgrade to your current machine, which would replace these soon-to-be obsolete components with readily available parts

ITEM NO.	DESCRIPTION	PART NO.	QTY.
1	E-NET MODULE, FESTO	8110 128 131	1
2	COVER, INPUT/OUTPUT MODULE, FESTO	8110 127 482	2
3	INSERT, INPUT MODULE, FESTO	8110 127 483	1
4	INSERT, OUTPUT MODULE, FESTO	8110 127 484	1
5	BASE, INPUT/OUTPUT MODULE, FESTO	8110 127 481	2
6	VALVE, 5/2, DOUBLE SOLENOID, FESTO	8110 127 488	2
